Dear Mia Thank you for your email. In response to your queries: 1) T3 Goat Willow - the trunks will be pollarded to a height of 1.5 metres T5 Portuguese Laurel - the tree is currently approximately 5 metres in height. A few branches which are touching the house will be reduced by approximately 1.5 metres T6 Hawthorn - there are 2 hawthorns: 1. Height approximately 4.5 metres - the crown will be lifted by approx. 1 metre as the branches are too low over the driveway 2. Height approximately 6 metres - crown lifted and branches overhanging driveway will be cut back by approximately 1.5 metres I hope this information is sufficient but please let me know if you need anything further.
