

Proposed Landscape Plan  
Scale 1:200

	<p><b>Bat Boxes</b></p> 	<p>Two bat boxes are to be installed on the existing dwelling and proposed side store extension. Both boxes are to be positioned at high level. The boxes are to include a grooved bat ladder &amp; a narrow entrance slit at the bottom. All timber to be used should be rough sawn and untreated from sustainable sources. All joints are to be well sealed and to avoid large, loose-fitting front panels. No removable lids are to be installed. To be placed min 3m above ground level.</p>
	<p><b>Bird Box</b></p> 	<p>National Trust aspen larch nest box is to be positioned at a suitable height. As noted in Anglian Ecology's report, this type of box is to be used by a Song Thrush. To be placed min 3m from ground level.</p>
	<p><b>Bird Box</b></p> 	<p>Bergen 32mm nest box. Made from birch wood, this give it a natural appearance. This box is to be positioned at least 2m high. The box's size is 240mm (L) x 180mm (H). As noted in Anglian Ecology's report, this type of box is to be used by a House Sparrow. To be placed min 3m from ground level.</p>
	<p><b>Bug Hotel &amp; Log Pile</b></p> 	<p>A new bug hotel is to be created within the long grass area as noted on the site plan. A combination of decaying wood, small logs &amp; rotting wood, stuffed with dead leaves in the nooks can help attract centipedes, woodlice and beetles.</p> <p>The log pile will consist of damp logs to encourage woodlice and other insects to settle.</p>
