

Climate Emergency Compliance Form for householder applications

Householder applications are required to complete the relevant sections of this form. Any form with blank entries will not be accepted and the planning application will not be able to be validated until the form is complete.

It may be that not all of the requirements apply to your householder proposal, please look at each of the requirements and consider what can be achieved within your proposal. Please refer to the [Climate Emergency Planning Toolkit](#) if you need further information.

In the event that any of the requirements are not met in full, please explain why this is the case and identify any proposals to mitigate the impact of non-compliance. This may be because your proposal is too small, or of a particular type, and that the requirement isn't applicable – this needs to be briefly explained in the appropriate column.

Completion of this form is a validation requirement and the local validations lists have been updated to include this.

Climate Emergency Compliance Form			
Requirement	Is the requirement being met onsite?	If 'in full or in part', which document/plan is the evidence included in;	If 'not' or 'in part', please explain reason for non-compliance and identify any measures you are proposing to mitigate for the non-compliance
	In full (F) In part (P) Not at all (N)		
Mitigation			
M1 – Min 1kw of onsite renewable energy generation	F	<i>(Panels shown on roof plan and elevations)</i>	
M4 – Resilient and low carbon building materials	F		The construction will, as far as possible, use materials with low transport mileage, low embodied carbon and good recyclability. Walls, floors and roofs will have a BRE Green Guide rating of at least A.
M6 – Electric vehicle charging points	N	<i>(Shown on plan if extension is adjacent to parking space. Should be shown as a minimum 7kw charger.)</i>	<i>(Will not be applicable if the proposal isn't adjoining an existing off-road parking space)</i>

Adaptation			
A1 – Passive solar design (All apps)	N/A	Additional documentation not required whilst this measure is under review.	Additional documentation not required whilst this measure is under review.
A2 – Protecting our soil resource (All apps)	F	The existing garden will be retained with the loss of only one small palm tree. The lawn area will be repaired and appropriate additional planting of trees and shrubs will be carried out when the works are complete. The existing driveway and garage will remain.	
A3 – Protecting and enhancing tree cover (All apps)	F		
A4 – Protecting and enhancing gardens, green spaces and greenfield sites (All apps)	F		
A5 – Delivering sustainable drainage, surface water management and restricting urban creep (All apps)	F	New surface water drainage will go to a new soakaway designed according to percolation tests (see Proposed block plan 2333.311)	
If an offsetting contribution is being proposed to mitigate the impacts of non-compliance, please refer to the most up-to-date Greater London Authority Carbon Offset Funds guidance
