LOCATION OF TREE

LOCATION OF PROPERTY

Highwood

- Slide 1 indicates the location & position of the tree(s).
- The applicant requests TPO planning consent to:
 - REMOVE X1 MATURE BEECH TREE IN THEIR REAR GARDEN. THEY HAVE X2 SEVERELY AUTISTIC, (NON VERBAL) ADULT CHILDREN AND WISH TO INCREASE THE AREA IN THE CENTRE OF THE GARDEN AVAILABLE TO THEM FOR RECREATION AND OUTDOOR EXERCISE.
 - THE TREE IN QUESTION HAS X2 LARGE INCLUDED UNIONS WITHIN THE FIRST 5M, THESE HAVE NOT BEEN DRILLED/TESTED WITH A RESISTOGRAPH OR SCANNED WITH SONIC TOMOGRAPH, AS ANY RISK POSED, COULD BE MITIGATED WITH BRACING. HOWEVER, THE APPLICANT WOULD LIKE TO REMOVE THIS PARTICULAR TREE WHICH IS LOCATED IN THE CENTRE OF THE REAR GARDEN.
 - THE TREE IS ONE OF A NUMBER OF 23M+ TREES IN THIS SECTION OF THE TPO'D AREA. THERE ARE X2 MATURE SYCAMORES, X1 SCOTTS PINE & X1 OTHER BEECH TREE IN THE APPLICANTS GARDEN.

T1 BEECH

T1. Beech. Subject to an area TPO. This tree has a basal included union visible in the next slide. This is not considered to be a unmanageable risk, as it could be mitigated by bracing.

The applicant would like to remove this tree to increase the available garden space for outdoor recreation, for his 2 autistic children.

T1 BEECH

T1. Beech. Subject to an area TPO. Basal included union visible here, showing pronounced buttresses. This is not considered to be a unmanageable risk, as it could be mitigated by bracing.

The applicant would like to remove this tree to increase the available garden space for outdoor recreation, for his 2 autistic children.

T1 BEECH

T1. Beech. Subject to an area TPO. 2nd included union visible here @approx 3m, again, showing pronounced buttresses. This is not considered to be a unmanageable risk, as it could be mitigated by bracing.

The applicant would like to remove this tree to increase the available garden space for outdoor recreation, for his 2 autistic children.
