

15 Lansdown Parade Carbon Footprint

10.68

tonnes CO₂e per year

Double Glazing Changes to footprint

https://www.researchgate.net/publication/317697313_Comparative_Study_of_Single-glazed_and_Double-glazed_Windows_in_Terms_of_Energy_Efficiency_and_Economic_Expenses

“Overall, the results indicated that double-glazed windows could save 50% of entire building loads, 0.2% on power consumption, 16.2% on gas and 12.4% on overall households’ energy consumption.”

Gas Consumption:

19,644 kWh → 16,462 kWh

4.1 tCO₂e → 3.42 tCO₂e
