Good morning Martin

Thank you for the details, we can register the dead Poplar as a '5 days written Notice for the removal of a dead tree', please can you annotate which tree is the dead one on the photograph (re-send) and we can get it registered.

The other live one wouldn't be covered by this, and a formal application should be made if you need to remove it.

Subject: Bridge house mill gate Aylsham 5 day notice

Hi Mark

At the rear of bridge house I inspected two large poplars one which has completely died and the other has some deadwood in it and is probably within the next year or so going to die, would you take this email as confirmation that we wish to remove the dead one, and an application will be made to remove the one next to it, if you feel that we won't need an application for the other one please let me no.

Many thanks
