GROOM'S COTTAGE OIL TANK AND DAMAGED FEED PIPE  
re-excavating the trench  
pull through further length of pipe  
cut out the damaged section

We calculate that you have lost somewhere in the region of 250litre of oil, as you know the tank was absolutely brimming when it was moved last week. Re. the spillage – hopefully this will evaporate. We would suggest monitoring the new brickwork for any damage and soforth.
