SUPPORTING STATEMENT FOR THE DEVELOPMENT OF A SINGLE GARAGE AND STORE  
AT TOWER HILL BARN, MILL LANE, BECKINGTON.

**Introduction**

Tower Hill Barn and Annex are located North of Mill Lane, Beckington. 3 Storage containers are currently on site North of the Annex.

**Proposal**

The construction of a single storey extension to the Annex to accommodate a single garage and storage area to the rear, replacing vital secure storage currently in the form of the storage containers. Following completion, the 3No. Storage Containers will be removed from their current position.

The development of the garage and storage will remove the unsightly storage containers and provide a solution to the current overlooking concern to and from the neighbouring property.

The design considerations respect the neighbouring property by minimizing the height of the extension and finishing with sympathetic materials to match the existing Annex.
