Description

Please describe details of the proposed development or works including any change of use

I had a fence replaced down the right hand side of my back garden, which is next to a wooded waste land. The fence begins at the gated entrance to my back garden; the straight line has veered slightly away from the house at the bottom by 140cm onto the wasteland. This has left a triangle of muddy ground at the edge of my garden.

I am anxious that the fence is slightly wide only at one end, onto the wasteland. It does not affect the trees and is not visible from the outside due to the badly overgrown waste land. The land is derelict and has not been maintained for the majority of the 20 years I have lived here.

It is noted that the works that have already been carried out and constitute a very minor small incursion into the amenity space to the side. As such, it is considered that the development will not detract from the value of the open space and therefore should an application for planning permission be submitted, it is likely to be looked upon favourably.

CONCLUSION

With regard to the above, it is considered that the development is acceptable in principle, subject to land contamination considerations being satisfactorily addressed.

Yours faithfully

p.p. Peter McIntyre
