Courier

I am writing to protest against the above proposal which was original applied for earlier in the year.

Our objection to it is why are people so obsessed by this small part of the village.

The village and all around being taken over by greed; of the council for more council taxes with more properties, and Parker and associates to make even more money for themselves.

In spite of the documents stating the village has so many amenities, it isn't true Yes there are two pubs one not always open the shop and the post office are one and the same shop and as Alms houses for elderly people, the bus services is diabolical 1 an hour both to Frinton or Walton on Naze to get to Colchester you have go into Clacton get another bus and wait for the connection or the 1 Colchester a day bus (not for the elderly).

Traffic in the Street is already horrendous and noisy Briarfields is a busy road now with so many deliveries and people taking the wrong turning with their SAT NAV and houses and bungalows being built in the church yard area has been going on for years still not finished not many occupied and there are more than 8 dwellings as stated In the documentation.

I could go on , but I know to no avail.

I feel in the last 20 or so years our lives are getting to be a misery where once it was a lovely place to live. Unlike the Parkers of this world we cannot move at this time of our lives

Yours sincerely,

Mr and Mrs B Ellis

Tendring
District Council
