Re planning application for single story extension

The reason for our application is 'future proofing' our home for our future.

We know Hollybourne House is our forever home and therefore need to ensure that it will fulfill our needs.

Getting to our bedroom on the first floor via a staircase (a stair lift or a full lift) will present problems so having a ground floor bedroom linked to a wet room will overcome this hence the planning application.

We hope you will therefore allow our application to be successful.

Kind regards

Nigel and Pauline Hunt
