Design

The design is flourishing the quality of living, well being supported by high quality design suited for this particular property. The design collaborating open spaces and allowing the accessible design to be established for mobility and access issues in current dwelling that are vitally important for the client.

The proposed extension is well hidden behind the bushes and trees. The size and position reflect the development to be allowed the house to be used by disabled person needs. The client would benefit from more open plans and design for wheel chair access as previous improvements of the property, such as; interior lift and other features for the client needs.
