Design and Access Statement for 7 Freelands Road, Oxford

This application is to regularise works already carried out to 7 Freelands Road, consisting of a loft conversion with dormer and hip to gable extension. The materials used in the project match the existing - the face of the dormer is tiles to match the roof and the gable end is painted render to match the existing property.

Daylight and sunlighting assessment

There are no daylighting implication as part of this application.
