HARD AND SOFT LANDSCAPE SCHEME FOR: CREST FARM YELSTED ROAD NR SITTINGBOURNE KENT ME9 7UU

This hard and soft landscape scheme has been prepared to be designed in accordance with the principles of the Council's landscape character guidance (Maidstone Landscape Character Assessment Supplement 2012) and to satisfy the landscaping conditions for planning approval Ref. 23/503230/FULL for a replacement dwelling at Crest Farm, Yelsted Rd, Nr. Sittingbourne, ME9 7UU. The proposed dwelling is a single storey, three bedroom detached house with driveway, parking area and landscaping as described below.

The objectives of the landscape scheme are to:

- Create a visually appealing and sustainable landscape that will enhance the development and the surrounding area.
- Encourage biodiversity and promote wildlife habitats.
- Use sustainable materials and construction methods.

#### Existing Landscape

The existing landscape of the site is a mixture of mature trees, hedges, and lawn. There is also a hard standing area on the South side of the site, concrete paving on the West, North & South sides of the existing dwelling and a hard standing driveway on the West side of the existing dwelling. The soil conditions are a layer of topsoil on chalky ground.

The following existing landscape features will be retained as part of the development:

- All existing trees and hedges within the site and adjacent to the site.
- All existing areas laid to lawn within the site and adjacent to the site.
- The pergola area on the West side of the site.
- All existing flowerbeds.

The following existing landscape features will be removed as part of the development:

- The concrete paving around the existing building will be replaced with paving slabs.
- The hard standing driveway on the West side of the existing building will be replaced with lawn.
- The hard standing area on the South side of the site will be replaced with quartz type gravel or similar and raised flower beds.

#### Proposed Landscape

The proposed landscape scheme includes a variety of hard and soft landscaping features, as follows:

Hard Landscaping Features

- A driveway and parking area for two cars.
- A patio on the North side of the house.
- Paving slabs on the North, West and South sides of the house.
- A gravel pathway and lawned area on the East side of the house.
- Raised flowerbeds around the edges of the hard standing area.
- Chestnut post and rail fence to the West and East sides of the house.

#### Soft Landscaping Features

- Beech hedging along the boundary to the east of the site.
- Wildflowers planted on the east side of the house laid mainly to bark.
- Existing flowerbeds will remain with additional flowering bulbs planted alongside.
- The lawned area on the West side of the house will be extended with a flowerbed added.

Other Landscape Features to encourage wildlife.

- Bird feeders, a habitat pile and a hedgehog house installed near the boundary to the East of the house.
- A bat box installed on the East wall of the house.
- Swift boxes installed on the East wall of the house.

## Conclusion

The proposed landscape scheme will create a visually appealing and sustainable landscape that will enhance the development and the surrounding area. It will also provide a variety of spaces for residents and visitors to enjoy, and it will encourage biodiversity and promote wildlife habitats. Materials will be sourced locally and, where possible, will be sustainable in nature.

# Planting Specification and Schedule

| Species   | Location                                      | Quantity | Maturity | Planting<br>Schedule |
|---|---|----------|----------|----------------------|
| Green Beech<br>(Fagus Sylvatica)                              | East boundary                                 | 200      | 5 years  | Nov-24               |
| Various wildflower varieties                                  | East side of building and east boundary       | N/A      | 1 year   | Nov-24               |
| Various perennial<br>flowers and<br>heather for<br>flowerbeds | West, North and<br>South sides of<br>building | N/A      | 1 Year   | Mar-25               |
| Various flowering<br>bulbs                                    | West, North and<br>South sides of<br>building | N/A      | 1 Year   | Dec-24               |

## Landscaping Implementation

| Task             | Start Date | End Date   | Notes   |
|------------------|------------|------------|---|
| Site preparation | 01/10/2024 | 08/11/2024 | Clear the site of any debris, grade the land, add topsoil to raise lawned area in front of house, install irrigation. |
| Planting         | 11/11/2024 | 15/11/2024 | Plant trees, hedges, turf and flowers according to the planting specification.  |
| Mulching         | 17/11/2024 | 18/11/2024 | Apply a layer of mulch to help retain moisture and suppress weeds.  |
| Hardscaping      | 19/11/2023 | 13/12/2024 | Install paving, gravel areas and walkway, raised flowerbeds, driveway, habitat pile and other hardscape features.     |
| Finish work      | 16/12/2024 | 20/12/2024 | Clean up the site and make any necessary adjustments.   |

## Maintenance Plan
