Dear Sir/Madam,

**Re: Removal of 2No. trees within a conservation area**

I am writing to formally request the removal of two trees on my property.

As an elderly resident, maintaining the garden of my home has become increasingly challenging. The two trees in question have matured over the years, casting shadows and hampering the growth of other plants.

The financial burden of maintaining these trees has become challenging. The regular trimming and pruning have become costly. Removing these trees would alleviate the ongoing financial strain.

I kindly request your understanding and support in this matter. I am more than willing to provide any additional information or meet in person to discuss my application further.

Yours sincerely,

Mrs Glenda Fisher
