

31 CHAPEL ROAD, BRIGHTON, NORWICH NR13 3LF  
 CLIMATE CHECK LIST

What will happen to the development and/or the users or occupiers if there is...?	Impact level.					Why do you think this?  What can you do to reduce this impact level? How have you designed the development to address this?
	Put an x to indicate impact.					
	Nil	Small	Medium	Significant	Extreme	
Higher summer temperatures (average and maximum)	X					
Longer periods of drought during the summer	X					
Longer periods of cloud free days	X					
Water (river, stream and lake) temperatures increased through year especially the summer	X					
Rainfall coming in more intense bursts	Greater potential for surface water flooding					
	More potential for higher ditch, stream and river levels	X				
Fewer frosty days	X					
More frequent storms – the effect of rain and wind	X					
More extreme / intense storms – the effect of rain and wind		X				
		X				
Rise in sea level	X					
Increase in salinity in the rivers	X					
Surge conditions in the North Sea	X
