

Description

We propose to replace the existing 'White' upvc casement windows with a new 'White' upvc casement top opening windows. The external and internal colour of the windows will be white to be sympathetic to what is already existing. the proposal will honour what existing to the rest of the block of flats by replicating the orientation of the openable portion of W1. By reversing the fixed pane to the left hand side will allow the new windows to harmonize with rest of the property. Referring to the rear of the property W3 will be replaced from a fixed pane window to a casement top hung window.
