

Application to extend the existing porch at Rosina, Brewery Road, Trunch NR28 0PU

The plan is to extend the existing porch currently measuring 1.7m x 1.7m along the West wall to measure 3.5m x 1.7m. It will finish 30cm short of the drainage downpipe. It will have 90cm brick wall with double-glazed U PVC windows and one door. It will also have a flat roof. This is all similar to the current construction.

The feasibility of the build has been discussed with the proposed builders posing no problems. The existing porch will be demolished and the new one built from scratch.
