Description of Proposed Works

Please describe the proposed works

We are proposing of a glass front to an existing room connected to the house at present being used as a utility/office .We will be demolishing the west wall, which is at present modern brick and replacing with a minimalistic glass front ,additionally we will be removing the Perspex roof and changing for slate as approved under planning application 21/2679/ful. 212680/lbc (Siga 39). The roof will be of the same size and pitch . Additionally we will be proposing building a porch on the west aspect of the house constructed in green oak frame with lime render infill on the two sides the front will be open.

The porch I consider, maintains an architectural quality of the original construction of the house and adds character to a otherwise plain wall. The Glass we propose to the front of the existing utility/office West side ,keeps a clear distinction between new and old .The goal of this glass front isn't for the extension to be to distract from the aesthetic qualities of the building quite the opposite but to instead to be subtly but clearly identifiable from the original structure .

To remove the modern brick and Perspex roof and to replace with in keeping tiles clearly would be an improvement.
