Description of Proposed Works

Please describe the proposed works

Attached to the house is a double garage with two separate garage doors. We plan to convert half of the double garage into a fully insulated and useable space. The aim is to make this into a playroom.

This will involve dividing the double garage with an internal wall. The space will be fully insulated, damp-proofed and we will install radiators, lights and electric sockets.

At the front of the garage, we would remove the current garage door and replace with a wall and window. At the rear of the garage, we would remove the door into the garden and install a window.

On the internal adjoining wall between the house and garage, we will fill in the existing doorway and relocate it, so the access is from the downstairs hallway, rather than the utility room.

This will leave one half of the existing double garage into a useable garage space.
