- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Non- original single-storey side and rear extension

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

It is necessary to demolish the existing side and rear extension to ensure additional storeys of accommodation can be located above. The existing singlestorey extensions are of very poor construction that is not up to current standards.

In addition to the existing extensions are of low-quality architectural value. It is felt that removing these and replacing them with a more considered and wellconstructed replacement would enhance and preserve the historic asset. Aesthetically it is required to remove these elements to ensure that the proposed development/extension looks considered and rationalised.
