Subject:Consultation response: Hampshire Countryside Service (Ref: 23/11206)

For the attention of: Julie Parry

Planning reference: 23/11206

Site location: 37 Newlands Copse, Blackfield, Fawley

Proposals: Demolish existing garage and build larger one

Consultation response: General information, no comments specific to application.

Thank you for consulting Hampshire Countryside Service (HCS) as Highways Authority regarding Public Rights of Way (PROW) and Commons Registration Authority. We also manage Country Parks and Countryside Sites throughout Hampshire. Please accept this as our response to the above application, taking into account the material considerations relating to PROW, Commons and impacts to Hampshire County Council (HCC) Country Parks and Countryside Sites.

There are specific legislative requirements for the Highways Authority, Planning Authority, Developers and Landowners with respect to the PROW network. Where no changes are proposed to Public Rights of Way, the Planning Authority shall be aware of the following, and we request that the applicant is made aware of the following requirements through informatives where appropriate.

Informatives:

1. Where Public Rights of Way are close to application sites or are used for access to the development site, they must be shown on the submitted plans with details of how they will be accommodated within the proposals. Government guidance requires that applications should not be validated unless such information has been submitted.
2. Nothing connected with the development, or its future use, shall have an adverse effect on the Public Rights of Way, which must always remain available for safe public use at all times.
3. No vehicles (including builder's and contractor's), machinery, equipment, materials, spoil, scaffolding, or anything else associated with the works, use, or occupation of the development, shall be left on or near to a Public Right of Way as to cause obstruction, hindrance, or a hazard to the legitimate users. The public retain the right to use the PROW at all times.
4. The grant of planning permission does not entitle developers to obstruct a public right of way. The diversion or stopping up of footpaths, bridleways and restricted byways is a separate process, which must be carried out before the paths are affected by the development. It cannot be assumed that because planning

- permission has been granted that an Order under section 257 of the TCPA (1990) will invariably be made or confirmed. Development, in so far as it affects a PROW, must not be started and the PROW should be kept open for public use, unless or until the necessary order has come into effect.
5. All vehicles that would be legitimately accessing the site via a Public Right of Way should give way to public users, which could include horse-riders and cyclists, at all times. In cases with legitimate vehicular access a Construction Traffic Management Plan (CTMP) should be submitted to, and approved by, Hampshire Countryside Service as Highways Authority prior to any approval by the Planning Authority, and prior to commencement, to ensure the protection of public safety.
 6. There must be no surface alterations to a Public Right of Way without the consent of Hampshire County Council as Highways Authority. Planning permission under the Town and County Planning Act (1990) does not provide this and separate consent is required. To carry out any such works without this permission would constitute an offence under Section 131 of the Highways Act (1980).
 7. No works to the surface of the Public Right of Way shall be carried out without prior approval of the HCS Area Countryside Access Manager. Any damage caused to the surface of the Public Right of Way by construction traffic will be required to be restored to the satisfaction of the Area Countryside Access Manager on the completion of the build.

Kind regards,

Peter Miles
