

AIR QUALITY STATEMENT

Land adjacent Knole, Kitwalls Lane, Milford on Sea

An Air Quality Statement is submitted as the development complies with the criteria for this method of mitigation stated in Table 1 of the New Forest District Council Air Quality Assessments in New Development SPD.

The development has been designed to reduce users of the sites exposure to pollutants, the dwelling will feature heating systems that utilise low carbon technologies. The development is not classed as a kerb-side development.

The property will have facility for the charging of electric vehicles.

The proposals incorporate the planting of trees and shrubs within the site.
