Comment: The proposed development has multiple issues wrong with it. The main problem is access and parking to Ruxley Close, the road cannot cope with anymore traffic or parking issues! Site traffic/ heavy lorries wouldn't work, due to residents cars parking on Ruxley close and cars could be damaged from the movement of the lorries. Residents need daily access to their garages. If Emergency services need/gain access to Ruxley Close, site traffic could hamper those services. Plus there is multiple wildlife living in the area of proposed site.
