Comment: May I say that I strongly object to this planning application. Access and parking from Ruxley Close? Really!! The site has obviously not been visited as it's quite clearly unsuitable for access AND parking to be gained from Ruxley Close. It is a small close, unmaintained by the council may I say and parked cars take up one side of the road at most times of the day. I suggest access to the site should be gained from Renda Road, where the proposer owns another property. This is probably the first of many complaints.
