Project No: 23-008 Address: 213 East Dulwich Grove, London, SE22 8SY PARKING PROVISION STATEMENT

The proposal accords with parking provision policy and guidelines as follows:

- There are currently three off-street car parking space on the front drive and the scheme proposals do not seek to change this. Hence, we do not anticipate the proposed works placing undue pressure on street parking.
- The site is in close proximity to public transport. It is within a short walk of North & West Dulwich railway station for rail services to and from central London. There are also frequent bus services from the local bus network.
- Overall, the application accords with parking provision policy and guidelines.
