

## Location 1

*The scaled panel images shown were inserted between 4 marker poles, 2.2m high, positioned at the corners of the array perimeter*

## Location 2

*The scaled panel images shown were inserted between 4 marker poles, 2.2m high, positioned at the corners of the array perimeter*

### Location 3

*The scaled panel images shown were inserted between 4 marker poles, 2.2m high, positioned at the corners of the array perimeter*

Location 4

Solar panel arrays

*The scaled panel images shown were inserted between 4 marker poles, 2.2m high, positioned at the corners of the array perimeter*

## Location 5

*The scaled panel images shown were inserted between 4 marker poles, 2.2m high, positioned at the corners of the array perimeter*
