For the attention of: Hannah Thorne

13th December 2023

Dear Hannah,

RE: Compass School, Southwark
OUR REF: 06-20-83506 BREEAM

With regards to the above named project of which Stroma Built Environment have been appointed the BREEAM Assessment Organisation, and myself as the licenced BREEAM Assessor, I can confirm that all Design Stage BREEAM evidence was submitted on 6th June 2023. The project has achieved the targeted Very Good level. The project is expected to achieve a score of 58.92%. Given the BRE stringent audit process, the re-submission of further evidence was submitted on 6th December 2023.

Submission to the Building Research Establishment (BRE) will now undergo their Quality Assurance Procedures. This is normal procedure and occurs in all assessments. The BRE currently quote a turnaround time of between 8 and 10 weeks to complete their Quality Assurance and return a certificate or request of further information should the assessment not pass their rigorous controls.

The final Post Construction stage of the assessment has commenced, and a number of the targeted credits have already been awarded.

Yours sincerely,

Bradley Clarke
Energy & Sustainability Consultant
Stroma Built Environment
