Subject: RE: Invalid Planning Application - DC/23/05826

***** Good Morning, Please see attached an invoice stating the live infestation. In terms of the sandblasting if this is not done then the treatment will have no effect, once done it will be re paint to the original state. An Ecology survey is not required on this application nor is it a validation requirement, the land in which the cart lodge sits is residential curtilage and as such the cart lodge is still residential as such no change of use of the land. Kind regards Angus Bridges BSc Hons Rural Planner Acorus Rural Property Services Ltd Old Market Office, 10 Risbygate Street, Bury St Edmunds Suffolk, IP33 3AA
