- Notes:**
- This drawing remains the property of the applicant and is not to be used for any other purpose without the written consent of Ian S Ford Building Surveying and Planning Ltd.
 - Dimensions should be checked on site prior to the commencement of works. Any discrepancies should be reported immediately to the architect.
 - The figured dimensions (in mm unless otherwise stated) are to be used for construction.
- Construction Notes:**
- All work must be completed by suitably skilled operatives who have the appropriate training, experience, tools and access for the job.
 - Written consent should be obtained from the local authority prior to the commencement of works.
 - Whilst completing the work the builder/contractor should provide all necessary safety measures and ensure that the work is carried out in a safe manner.
 - Provisionary measures should be made with regard to the safety of the public and the building.
 - Access provided and safety procedures in place. All scaffolding to have a written confirmation that the scaffolding has been designed and erected in accordance with the relevant standards and is appropriate to the work.
 - Care should be taken to ensure the site is appropriately secured at all times to both the occupants of the building and the general public.
 - Contractors, sub-contractors, and clients (including domestic clients) for listed buildings should refer to the relevant legislation for listed buildings: <http://www.the.gov.uk/construction/2015/domestic-client.htm> or <http://www.the.gov.uk/construction/2015/commercial-client.htm>
