Please indicate why you are applying for a lawful development certificate

- An existing use
 Existing building works
 An existing use, building work or activity in breach of a condition

Being a use, building works or activity which is still going on at the date of this application.

If Yes, to either 'an existing use' or 'an existing use in breach of a condition', please select the relevant Use Class.

Description of Existing Use, Building Works or Activity

Please fully describe each existing use, building works or activity for which you want the lawful development certificate. Where appropriate, show to which part of the land each use, building works or activity relates

Existing rear extension, used to facilitate kitchen / dining area. Extension is to the rear of the property, which follows all the rules under permitted development.

Grounds for application for a Lawful Development Certificate

Under what grounds is the certificate being sought

- The use began more than 10 years before the date of this application
 The use, building works or activity in breach of condition began more than 10 years before the date of this application
 The use began within the last 10 years, as a result of a change of use not requiring planning permission, and there has not been a change of use requiring planning permission in the last 10 years
 The building works (for instance, building or engineering works) were substantially completed more than four years before the date of this application.
 The use as a single dwelling house began more than four years before the date of this application
 Other - please specify (this might include claims that the change of use or building work was not development, or that it benefited from planning permission granted under the Act or by the General Permitted Development Order).

If the certificate is sought on 'Other' grounds please give details

Context to the situation, Original prior approvals was sought (application Ref:PP-12148410) this was refused as it was deemed the eaves of the extension was higher than the eaves of the original house. Upon inspection the Local Authority realised this wasn't the case, as the contractor had lowered the height of the eaves (with proven photos) to enable a parapet on the extension. Since then I have been advised by the Local authority to submit under Retrospective planning, and then re advised to withdraw after a further site visit was conducted. We have now been advised that the build will be signed off under retrospective permitted development, hence the change in application again.
