

proposed development site area

1- relocate existing entrance security barrier with new mechanism

2- existing pitch extended to create ST4 to standard size

3- repositioned original staff pitches to new standard size (refer to note 9 opposite)

4- space provided between pitch fenceline & tree for maintenance purposes

5- retained grass around existing trees with concrete pin kerb

6- existing hedge & planting to continue to undergo regular maintenance to provide the requisite visibility splays to the existing vehicular entrances/exits

7- improved new independent Chemical Disposal Point tank below ground level

8- specialist asbestos removal contractor to remove small asbestos roof panels on lean-to building; replacement roof finish comprises new metal sheet with profile to match existing

9- remove 3No. existing hardstanding pitches due to restricted size, grub up & resurface with grass (approx. 150m²)

10- existing 5-bar gate to be retained with additional height restriction barrier added for security purposes

H 15.12.23 Development site area boundary amended.
