To whom it may concern

re: Curtilage of Roughwood, Shalden Green Road

Living next door to Roughwood ever since the current owners purchased this property I can state that the grassed area to the west of the formal garden as delineated by a short hedge has been in continuous use as part of the garden as a whole.

This area has been used as their children's play area for football, cricket and other sports, a site for barbecues, marquees for family events etc. and in recent years has been planted up with wildflower beds.

Yours faithfully
