Good morning.

I would like to register my complaint against the planned installation of a 9m pole outside of my house.

I thought we had moved away from the old technology of poles and wires. Our path is narrow and a pole would restrict the passage of a pram or wheelchair. As the Council tell people to cut hedges back to provide more space on the footpath I think you should check that access is not restricted by these poles.

Wires across roads sometimes creates problems for skip delivery or other high sided vehicles.

I have no intention of using TOOB broadband in the future. I have no need for ultra fast broadband.

If none of my neighbours want TOOB could the company not install the poles?

Anthony Trice
