

NOTES:-
The accuracy and content of this drawing are dependent on the original specification and ED should be consulted before use in other works.
Where underground services are shown, all reasonable care has been taken within the limits of the original specification and equipment. Before use of this information the user should ensure that any utility companies of the construction and accuracy of such services are confirmed by ground conditions and the location equipment no guarantee can be given that any services have been represented. This drawing should be used as a reference only.
All reasonable care has been taken in the survey and the specification and content of this drawing are dependent on the original specification and ED should be consulted before use in other works.
Our aim is to produce the best possible results within the specification and cost constraints of our clients. Any comments are most welcome.
Levels shown at kerbs are channel level unless stated.
