# Appendix 2 – Screening Assessment Form (Version 12.2)

Please complete this form and submit with photographs to the Local Planning Authority with your completed Planning Application Form.

If you are undertaking a small development (such as one house in a garden) most Local Authorities will accept this Screening Assessment Form as a basic contamination assessment, which fulfils the requirements of the 'Existing Use' section of the planning application form. The use of this form is at the discretion of the Local Authority. If you are unsure whether it can be used for your development, please check with the Council's Contaminated Land Officer.

This Screening Assessment Form is not suitable for larger housing developments, allotments, schools, nurseries, children's play areas, playing fields, or if there has been a past industrial use on or adjacent to the land. In these instances you will need to submit a Phase 1 Report (Preliminary Risk Assessment) and if appropriate, subsequent Phase 2 (Site Investigation and Risk Assessment), Phase 3 (Remediation Strategy) and Phase 4 (Verification) Reports.

NOTE: Failure to provide the required information at this stage may result in a delay in the application process and the imposition of planning conditions relating to land contamination.

If at any point when completing the form, you suspect that contamination may exist on the site (or on an adjacent site) which could affect the proposed use, it is strongly advised that you contact the Council's Contaminated Land Officer before proceeding, as this may necessitate the submission of a more detailed Phase 1 Report.

### 1. APPLICANT / AGENT DETAILS

Full Name	Richard Robinson
Address	Millfield House Linley Ave Haxby York YO32 3NF
Telephone	
Email	

### 2. DEVELOPMENT DETAILS

Site Name	Millfield House				
Site Address	Linley Ave Haxby York YO32 3NF				
Site Grid Reference	Easting 461355 Northing 45804				

### 3. SITE DESCRIPTION

Please provide a detailed description and photographs of the land being developed. Include details of the layout and ground covering, existing buildings and any evidence of former buildings or site activities, any evidence of made/filled ground, and any signs of subsidence or contamination (e.g. ground staining/discolouration, odours, vegetation distress/dieback).
Private garden with no settlment, standing water and all virgin ground
Please tick to confirm that relevant photographs have been included

## 4. SITE HISTORY, LAND AND BUILDING USE

Proposed land use (tick all that apply)	Domestic 俶	Agricultural	Commercial	Industrial	Other (give details)
Current land use (tick all that apply)	Domestic 俶	Agricultural	Commercial	Industrial	Other (give details)
Past land use – last 150 years (tick all that apply)	Domestic	Agricultural	Commercial	Industrial	Other (give details)

NOTE: If the site has a past or current industrial use, this Screening Assessment Form should not be used and you will need to submit a Phase 1 Report (Preliminary Risk Assessment) instead.

If the past land use has	Land Use	Start Date		End D	Date	
changed, please give date of change(s)	n/a					
(please use category types from the previous table).	Land Use	Start Date		End D	End Date

### 5. WASTE DISPOSAL ACTIVITIES

Landfill sites can sometimes contaminate surrounding land. For more information and to check if any current or historical landfill sites are located near your site, please refer to the Environment Agency's section on data.gov.uk or contact the Council's Contaminated Land Officer.

Have any waste disposal activities (including the burning of waste) been carried out onsite?	Yes 🗌	No <b>■</b>
Have any waste disposal activities been carried out on surrounding land within 250 metres of the site?	Yes 🗌	No 🔳
If 'Yes' to either of the above, please provide details.		

### 6. MINING & QUARRYING

Mining and quarrying activities can sometimes contaminate surrounding land. You can use the Coal Authority interactive map viewer on <a href="https://www.gov.uk/guidance/using-coal-mining-information">https://www.gov.uk/guidance/using-coal-mining-information</a> to check if your site could be affected by coal mining.

Have any mining or quarrying activities been carried out onsite or within 250 metres of the site?	Yes 🗌	No <b>■</b>
Is the site located in a coal mining reporting	\ \ \	
area?	Yes ∐	No <b>■</b>
Is the site located in a Coal Authority	Yes□	No ■

Are any coal or mine entries located onsite or within 50 metres of the site?	Yes 🗌	No 🔳
If 'Yes' to any of the above, please provide		
details.		

### 7. RADON GAS

Radon is a colourless, odourless radioactive gas formed by the radioactive decay of small amounts of uranium that occur naturally in all rocks and soils. Exposure to this type of radiation is a risk to health. To check if your site is in a radon affected area, you can view the indicative radon map on <a href="https://www.ukradon.org/information">https://www.ukradon.org/information</a> or you can purchase a more detailed radon address search.

Which Radon potential	Less than 1% (low risk)			1-3% (medium risk)			3-5% (medium risk)	
band is the site in?  5-10% (medium risk)			10-30% (high risk)		Greater than 30% (high risk)
