Details of the pre-application advice received Thank you for your enquiry concerning the above site. I apologise for the delay of my response, however I've had the opportunity to visit the site (thank you to the applicant for arranging access last week), have discussed the proposal with the Conservation Officer, and can offer the following
comments. The existing property does not have architectural or historic merit, but due to it being single storey, has a neutral impact upon the character and appearance of Braunston Conservation Area and the street scene. There is no objection in principle to the proposed demolition of the property and a replacement property here, subject to the below site specific issues.
Authority Employee/Member

It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
