Description of Proposed Works

Please describe the proposed works

The proposal is for a single storey rear extension to the west of an existing dwelling. The currently modest ground floor arrangement is not sufficient in terms of usable layout, storage space and entertainment space to cater for modern day living. The erection of a new extension will provide a better layout for the ground floor - including an open plan kitchen and dining room - as well as more light, storage and better views to enjoy the garden. The extension will follow the look and materiality of the existing house and will not go further in height or width from the current footprint of the dwelling.

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
