Pine Walk

Chilworth

Southampton

SO16 7HP

Dear Sir/Madam,

Following my conversation with a gentleman called Mark this morning from your customer service team I have been asked to send an email requesting permission to cut down a dangerous Pine tree that has started to lean over our home and our neighbours home following the strong winds we had last night/this morning. The tree requires to be cut down urgently otherwise if the tree was to fall it would cause significant damage to both properties and potentially risk to lives if anyone is within the area of it falling.

I have spoken to a tree surgeon and he said the tree needs to be cut down as it is leaning too much over ours homes.

I hearby give 5 days notice to fell an imminently dangerous tree.

I have attached photos of the tree and a map showing the approximate location of the tree within our garden.

If permission can be granted as soon as possible I can arrange for the tree to be cut down and a replacement can be planted if required.

Kind regards

Mr and Mrs Chhokran
