Date: 28th October 2023

Dear Sir/Madam,

Address: 8 HIGHFIELD AVENUE, RINGWOOD BH24 1RH
Proposal: Second floor extension, roof alterations and dormer windows

We have been advised by case officer Kate Cattermole that we need to resubmit our approved planning application.

We originally had our plans approved on 6th March 2023, reference number: 23/10072, creating a new roof with 3 bedrooms and a bathroom.

However, after starting work it became apparent as the build progressed that financial difficulties would not allow us to complete the 3rd bedroom to the rear of the property. For us to ensure that we could complete the two rooms and bathroom over the original building and get our property secure and water tight again we decided the best course of action was to replace the 3rd bedroom with a small dormer window matching the others.

We discussed options with building control and from their point of view they're happy with the changes, however, we are now submitting revised plans.

If you require any further details please do let us know.

Yours, sincerely,
