

Biodiversity Checklist

	Circle if applicable	Reference Section Number (see bottom of page)	Will the proposals affect any of the following?:			
	<input type="radio"/>	Bats may be an issue, refer to 1A	Roof of a building	Yes		
	<input type="radio"/>	Bats may be an issue, refer to 1B	Bridge, tunnel, culvert, kiln, ice house or cellar	Yes		
	<input type="radio"/>	Bats may be an issue, refer to 1C	Old building with gaps in walls, around eaves, beneath tiles, around soffit boxes, external weatherboarding	Yes		
	<input type="radio"/>	Bats may be an issue, refer to 1C	Mature tree with cavities and crevices	Yes		
	<input type="radio"/>	Bats and barn owls may be an issue, refer to 1C and 4	Barns	Yes		No further information required
	<input type="radio"/>	Badgers may be an issue, refer to 6	Large holes in the ground, grassland with regular digging activity, sites where badgers are known to be present	Yes		No further information required
	<input type="radio"/>	Newts may be an issue, refer to 2	Any still (not flowing) water bodies on or adjacent to the site	Yes		No further information required
	<input type="radio"/>	Newts and reptiles may be an issue, refer to 2 and 3	Long grass, overgrown areas, nettles, weeds etc. Overgrown brownfield sites and overgrown gardens	Yes		No further information required
	<input type="radio"/>	Reptiles may be an issue, refer to 3	Scrub, brambles adjacent to grassland	Yes		No further information required
	<input type="radio"/>	Dormice may be an issue, refer to 8	Scrub, brambles connected to woodland (directly or via hedgerows)	Yes		No further information required
	<input type="radio"/>	Newts, reptiles and dormice may be an issue, refer to 2, 3 and 8	Hedgerows	Yes		No further information required
	<input type="radio"/>	Newts, badgers, dormice and bats may be an issue, refer to 1C, 2, 6	Woodland	Yes		No further information required

and 8

--	--	--	--

Wet ditches and rivers	Yes	Water voles and otters may be an issue, refer to 5 and 7	<input type="radio"/> NO	No further information required
------------------------	-----	--	--------------------------	---------------------------------

Reedbeds	Yes	The habitat may be of high ecological value, refer to 9	<input type="radio"/> NO	No further information required
----------	-----	---	--------------------------	---------------------------------

Orchards	Yes	The habitat may be of high ecological value, refer to 9	<input type="radio"/> NO	No further information required
----------	-----	---	--------------------------	---------------------------------

Wildflower rich meadow	Yes	The habitat may be of high ecological value, refer to 9	<input type="radio"/> NO	No further information required
------------------------	-----	---	--------------------------	---------------------------------

Fen, marsh, swamp	Yes	The habitat may be of high ecological value, refer to 9	<input type="radio"/> NO	No further information required
-------------------	-----	---	--------------------------	---------------------------------

Wet meadow	Yes	The habitat may be of high ecological value, refer to 9	<input type="radio"/> NO	No further information required
------------	-----	---	--------------------------	---------------------------------

Wood pasture parkland	Yes	The habitat may be of high ecological value, refer to 9	<input type="radio"/> NO	No further information required
-----------------------	-----	---	--------------------------	---------------------------------

Nesting Birds – do you have any trees, shrubs, extensive areas of long grass, or buildings to which birds have access? Please confirm that:	Yes	I will commence tree / building works outside of March – August, or carry out a check for nests prior to commencing works	<input type="radio"/> NO	No potential bird nesting habitat is present, and no further precautions are required
---	-----	---	--------------------------	---

Are your proposals likely to have an impact upon any of the designated sites listed in section 10 below?	Yes	Further surveys may be required to determine the likely impact of the works upon the designated site	<input type="radio"/> NO	No further information required
--	-----	--	--------------------------	---------------------------------

IMPORTANT: If you do not believe that any of the features listed below will be affected by your proposals, or if you do not believe that you require further survey or opinion from a professional ecologist, please provide a short 'Self Assessment Statement' detailing what you have done to check whether any of the species listed above are present, and / or why you believe that they are not present.

Useful links are provided in each section below to help in your assessment.
