

Location: 20 Carr Cottage, Carrbrook, SK15 3NS

Location: 20 Carr Cottage, Carrbrook, SK15 3NS

Location of the trees to be felled
(Tree One and Tree Two)

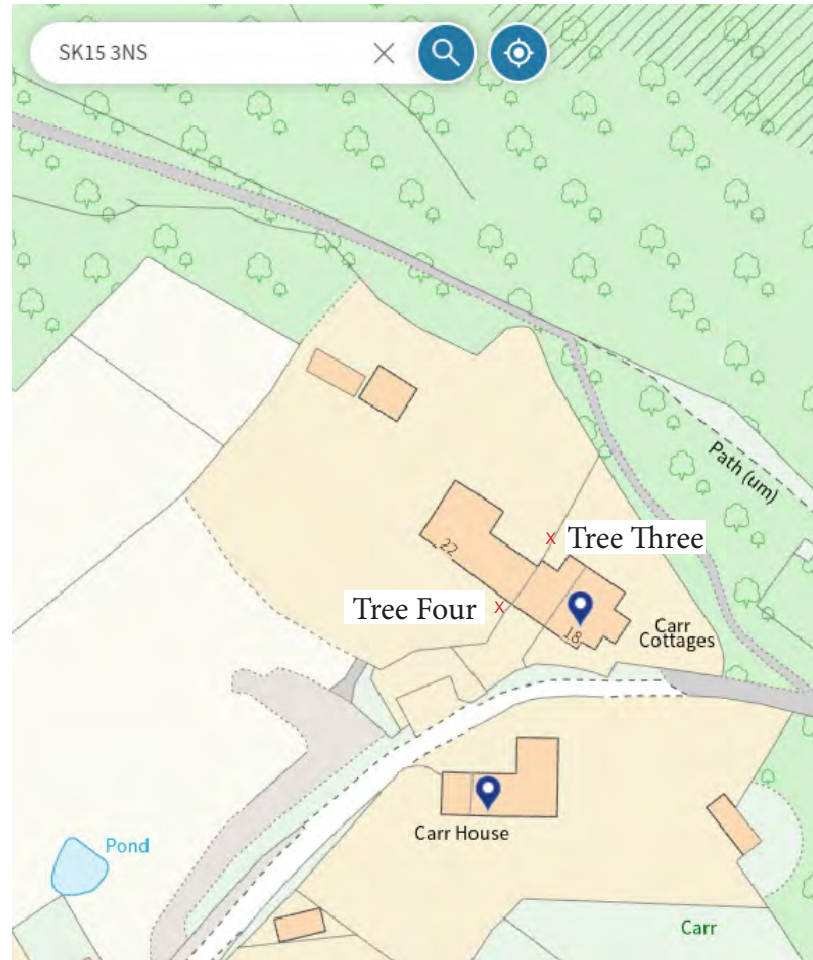

Storm uprooting damage to Tree 1.

Tree 1 and Tree 2 location taken from first floor window.

Location of the trees to be sought advice on
(Tree Three and Tree Four)

Tree One, Tree Two and Tree Three
taken from first floor window.

Boundary fence between 18 and 20
(not shown on map as they were a
single property until the 1990's)

Location of the trees to be sought advice on
(Tree Three)

Tree Three taken from second floor window during Spring.
The branches of this tree are very long and could cause significant damage to the property if a similar storm hit.

Location of the trees to be sought advice on
(Three Four)

Tree Four taken from first floor window during Spring.
When the leaves fall this causes gutter blockages that have
caused damage to the stonework and damp by the front door.

Tree Four taken from bottom of garden at 3pm during Spring.
Notice the light the tree blocks.
The cooling benefit isn't felt as the sun has already heated the
roof since sunrise.
