

30th November 2023

Ref: 23/P/2521/TRCA

Work Specification

We wish to remove the Leyland Cypress tree and the Monterey Cypress tree at the rear of our property. Both of these trees present a risk to our residents, the general public, properties on South Terrace and parked and passing vehicles.

Please find attached photo of a heavily pruned Leyland Cypress tree in Melrose car park – directly opposite the front entrance to Sefton Park, 10 Royal Crescent. BS23 2AX. Please note that this tree is stood upright and not leaning like the Leyland Cypress we wish to fell. I have attached photos in my original application showing the lean of the tree, the broken boundary wall and the canopy going over the road (South Terrace). Please also see attached photo of branches that were broken off by a passing lorry down South Terrace.

Specification of proposed works

- We will inform neighbouring properties of work to be carried out.
- Consideration needs to be given as to whether part of the road in South Terrace will need to be closed.
- We will use the services of a licenced tree surgeon.
- We will make all repairs to the damaged boundary wall.
- We are happy to replace the trees with the same trees.

I hope that this additional information is to your satisfaction. If you require anything else, please feel free to contact me.

Yours Sincerely,

Lisa Oxley
Deputy Service Manager
