Foston's Ash Inn
 The Camp
 Stroud
 GL6 7ES

Methodology

In accordance with the provisions of Chapter 15 (paragraph 186(d)) of the NPPF biodiversity enhancement can be incorporated into the proposed development to maximise the ecological value of the site.

To enhance diversity at the site as well as for night-flying invertebrates and thus for foraging bats, as well as providing nesting opportunities for birds, hedge and tree planting should be undertaken. Suitable species include a mixture of the following native species:

- Bird cherry (*Prunus padus*)
- Crab apple (*Malus sylvestris*)
- Field maple (*Acer campestre*)
- Guelder rose (*Viburnum opulus*)
- Oak (*Quercus robur*)
- Rowan (*Sorbus aucuparia*)
- Wayfaring tree (*Viburnum lantana*)
- Whitebeam (*Sorbus aria*)
- Wild cherry (*Prunus avium*)
- Wild service tree (*Sorbus torminalis*)
- Wych elm (*Ulmus glabra*)
