Dear Sir / Madam,

I spoke to one of your colleagues this morning and explained to him that I had submitted a planning application for my client online and the site had assigned it to Glasgow City Council instead of North Lanarkshire. Given that there is clearly an issue with the local authority area plan within the site I am therefore unable to submit the application through eplanning. I was then advised by Connor to submit the application by email. Therefore please find attached our application for planning permission including the completed forms and drawings. I would appreciate if you could register the application and issue us with payment instructions so that we can get the application validated.

I trust this is in order, however, should there be any problems please do not hesitate to contact me.

Kind Regards,

John McRoberts  
For **JAM** Architects Ltd.
