

Proposed siting of a 12 panel Solar Array at Brook Cottage, Mill Lane, Uplyme, Lyme Regis DT7 3TZ.

Brook Cottage is a residential property situated in Uplyme, Devon. The proposal is to site a stand alone solar array on a sloping section of garden facing South/South West sited between the garage/hardstanding and dwelling. The array will comprise of a total of 12 no 1762mm x 1134mm solar panels set at approximately 35 degrees following the natural gradient of the existing land on a ground bearing aluminium and composite post frame. The panels will be located in portrait profile set out as 2 no banks of 6 panels wide by 2 panels high. The arrays will terminate approximately 0.3m above the existing ground level. The arrays will cover a total ground area of 24.46m².

Existing view of proposed site looking West/North West
