Details of the pre-application advice received

The pre-planning application sought feedback for a single storey side and rear extension and a loft extension, however works to the loft do not form part of this application. The conclusion of notice letter was that the ground floor would likely be considered acceptable in design terms and would not have a significant or detrimental impact on the amenity enjoyed by neighbouring residents.

The pre-planning application made the recommendation that a daylight and sunlight report should be submitted to ensure the proposed works would not cause any material loss of light to 142. However this was for an extension which was 4.2m deep and 3.4m at the eaves.

To reduce the potential impact to 142, the proposed design has stepped the extension back in this area to a depth of 4.07m and the height at the eaves has been reduced down to 3.1m. Due to these design changes, a daylight and sunlight report has not been undertaken, but the clients are happy to commission one if you still feel it is necessary.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

- No
