Description
Please describe details of the proposed development or works including any change of use
We would like to remove the stone wall to our property to create a larger parking area. This will include extending the current dropped kerb to
allow access and tarmac the pavement area infront of the stone wall we remove. We currently have issues with the current access as we
need to enter our driveway on an angle, this isnt always possible due to cars parking so close to the current dropped kerb. My daughter is a type 1 diabetic and we need to ensure we always have access in case of an emergency.
The road is used by public buses and they also struggle due to the number of parked cars so this will improve the conditions for them as there
will be less parked cars.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
