The main Contractor is to check and verify all Building and site dimensions, levels and level of ground and street levels of proposed points before work starts. The Contractor is to comply all aspects with current Building regulations, Part W of the Building Regulations, Construction (Design & Management) Regulations, Party Wall Act, etc, whether or not questions raised on this drawing. The drawing must be read with the checked signed and attached geotechnical or other specialist documentation provided.

The drawing is not intended to show details of foundations, ground conditions or ground conditions. Each area of ground shall upon its assignment to the cause related to the drawing must be investigated by the Contractor. A suitable method of investigation should be provided allowing for existing ground conditions. Any subject to full ground conditions or or within the ground should be further investigated by a suitably qualified person. Any earth-work construction shown indicate the level of the ground and any other should be further investigated by a suitably qualified person.

Where existing trees are to be retained they should be subject to a full arboricultural inspection for safety. All trees are to be identified to ensure they are a minimum of 75mm dbh (at 1.3m) and 2m from drainage and services and a suitable method of foundation to be provided to accommodate the proposed tree planting.
