Officer support is provided for the scheme, and in terms of its design, the main entrance foyer from the visuals provided, appears to be a welcoming innovative design that is both contemporary whilst traditionally referencing the arched elements that are present on the main school building. The detailing, craftsmanship and choice of materials will be a key element to achieving a high quality building that is testament to the clear onus that the school places on its music and cultural elements.

Conclusion:

This is an exciting proposal, of upgrading educational and cultural facilities within a highly regarded secondary school in Truro, provided the comments within this letter are taken on board officer support will be forthcoming.

Subsequent Email communications with Huw Gibbon (Principal Development Officer - Highways) received 19th July 2023 - confirming no off site highway contributions will be required in relation to this project.
